

## Sailing boat excursion in the Borromeo Gulf

A boat excursion is the most thrilling way to truly experience the beauty of the lake. Piero Chiara wrote: "The spectacle of the lake is something quite indescribable. You can not even imagine what the coasts are seen from the waters, one villa after another, the rivers, streams, small waterfalls descending from the mountains ...".

Departure from Laveno at around 9:00, direct navigation to the Borromeo Islands: you'll admire Isola Madre and Isola Bella from up close, with spectacular views of the botanical gardens on both islands. The small and characteristic Isola dei Pescatori is located further north and is the only one of these three islands to be inhabited.

On the way back you'll see the fascinating Eremo di Santa Caterina, a 14th century monastery nestled on a sheer drop over the lake. The skipper shall be your guide on this journey of discovery from an entirely different point of view. Return at 17:30.

**Period:** all-year

**Duration:** 8 hours

**Price per person:**

**€ 99,00** *minimum 4 participants*
